MOVING WALL

The magnetic, writeable wall Moving Wall is a tool for agile working and mobile space making. In contrast to the classic whiteboard, the high-end, mobile wall allows for innovative collaboration methods and is thus an essential tool for future oriented work processes.

Conceptualised as an individual element, the tool is absolutely modular and can be stringed together as often as desired in a straight line or as a circular arc – without interrupting the flow of writing. The easy assembly facilitates a speedy transport, making the Moving Wall also a great mobile room divider as well as a helpful storage facility.
