

DAPPER LOUNGE

DESIGN BY DOSHI LEVIEN

Designed by Doshi Levien for HAY, the Dapper lounge chair represents the design duo's distinctive fusion of industrial design, fine craftsmanship, storytelling and technology. Originally designed for use in a London university, Dapper has an extra wide backrest for comfort and optimal elbow support for laptop work. Its structural shape is formed by two moulded oak-veneered plywood shells with powder coated steel legs. Dapper's shell comes in a variety of stained and lacquered oak veneers, fabrics and leathers, with the frame available in several different variations of powder coated steel.
