

Popsicle waste bin is a brand new product designed by Jangir Maddadi. It is the first outdoor product we can offer, but can be placed indoors if you so wish. At first glance, the thoughts go to a classic ice cream shape. Hence the name.

The frame is made of galvanized sheet steel which can be painted in our standard colours or any RAL colour.

The leg stands are available in 3 different designs, depending on how and where you want to place Popsicle. Of course, it is stainless material for outdoor use and Swedish steel sheet for indoor use. There are various alternatives how to anchor Popsicle.

Frame: Powder-coated galvanised steel plate. **Lid:** Stainless steel.
Shaft, Powder-coated steel plate for interior use or stainless steel plate for outdoor use.

How to order Popsicle:

1. Choose unit and colour (with or without lid)
2. Choose symbol
3. Choose shaft (footplate, concrete foot or foot for casting into the ground)

Popsicle with shaft in powder-coated stainless steel cast into the ground.

Popsicle Powder-coated galvanised steel plate.
 Total height including foot 1044 mm. 57L

For Popsicle we recommend waste bag 85-125L.

QUICK INFO.

Content	Certification TreCe	Certification TreCe
Environmental & social aspects	ISO 9001:2015	ISO 14001:2015
Country of manufacture	Recycled material	
Sweden	20% recycled steel (frame)	

SVHC/ECHA's candidate list

No chemicals included in ECHA's candidate list of SVHC may be contained in levels of >0.1% by weight in the components, parts or chemicals that are included or used in the manufacturing of the furniture/product. See <http://echa.europa.eu/en/candidate-list-table>

Metal – frame and shaft

The frame consists of galvanized sheet metal, Shaft 1 consists of cold-rolled steel sheet, Shafts 2 and 3 consist of stainless steel. The cold-rolled steel sheet consists of 20% recycled material. The metal used meet the requirements in table 1.

Table 1: Requirements metal

Requirements	Complies
Metal that will have prolonged contact with skin (e.g. armrests) must not consist of alloys containing nickel, chromium III or chromium VI.	X

Powder coating

Popsicle is painted with powder coating which provides both environmental and quality benefits as no solvents need to be added and the amount of waste is very small. In addition, the powder coating gives a durable and stylish finish. Fulfilled requirements are shown in tables 2 and 3. Safety data sheets according to REACH CLP-regulation no1272/2008 are sent on request.

Table 2: Requirements surface treatment

Requirements	Complies
The content of aromatic solvents / hydrocarbons in surface treatment products / preparations may not exceed 1.0% by weight.	X
Surface treatment with preparations containing VOC may have a maximum applied VOC component of 60 g / m ² for office / public / outdoor environment.	X

Table 3: Hazard class and hazard statement according to Regulation 790/2009

Hazard category	Hazard statement according to regulation 790/2009	Complies
Acute toxicity	H300, H301, H310, H311, H330, H331	X
Toxic to body organs	H370, H371, H372, H373	X
Carcinogenic	H350, H351	X
Mutagenic	H340, H341	X
Toxic for reproduction	H360, H361	X
Allergenic	H334	X
Dangerous to the environment	H400, H410, H411, H412, H413 If the use of surface treatment products is required for technical reasons, products labelled as dangerous to the environment (H400, H410, H411, H412, H413) may be acceptable if the content of environmentally hazardous substance <14 g/per m ² of surface.	X

Social responsibility

We have ensured that this product is manufactured under good conditions, ie. with regard to social and ethical issues such as working conditions, human rights, labour, environment and corruption. We have sent these requirements to our suppliers and subcontractors, who have each certified that they are followed. A summary is shown in table 4 and applies to the entire manufacture process of a product and it's components. The starting point is the UN guidelines on the "Code of Conduct" and Möbelfakta's requirements for Social Responsibility are formulated on the basis of the UN's Global Compact. As well as conditions for social and ethical considerations regarding tax irregularities and illegal labour. The principles are based on below;

- UN Universal Declaration of Human Rights
- Rio Declaration on Environment and Development
- International Labour Organization (ILO) eight core conventions on human and labour rights
- UN Convention against Corruption
- Work environment requirements based on ILO conventions on health and safety

Table 4: Summary requirements for social responsibility

Requirements		Complies
Legislation	The furniture and its components must be manufactured in accordance with national legislation.	X
